

Synthetic Partner Financial Report

Reporting period: April 2026. SYNTHETIC SAMPLE, no real figures or entities. This stands in for the kind of dense, predefined report where only a few pages carry the numbers that matter.

Front matter, cover letters, and methodology notes typically fill the first several pages. The figures a team actually needs sit in the tables below.

Premium write-offs by category

Category	Accounts	Amount (\$)	Share
Unpaid undergrad premiums	412	41,250	70%
Late graduate premiums	88	9,300	16%
Adjustments and reversals	37	4,900	8%
Other	19	3,400	6%

Claims revenue by business unit

Unit	Claims	Revenue (\$)	Note
Unit A	2,140	612,000	over half of total
Unit B	980	221,000	
Unit C	410	88,000	declining
Unit D	160	31,000	new this period

Monthly summary

Month	Premiums (\$)	Write-offs (\$)	Net (\$)
Jan	720,000	52,000	668,000
Feb	705,000	48,500	656,500
Mar	731,000	61,200	669,800
Apr	742,000	58,850	683,150

Observation hidden in the detail: the great majority of write-offs trace to one category, and one business unit drives most claim revenue. Those are the kind of nuggets the pipeline surfaces.
